DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: claim 1 has been allowed over the prior art because they fail to teach a semiconductor optical device apparatus comprising: a substrate; a compound semiconductor layer containing an active layer; a dielectric protection film having a stripe-shaped opening formed on the compound semiconductor layer; and a ridge type compound semiconductor layer having a smaller refractive index than the refractive index of the active layer; the ridge type compound semiconductor layer being formed as to cover the stripe-shaped opening, **wherein the compound semiconductor layer, the dielectric protection film and ridge type compound semiconductor layer are formed on the substrate, and wherein the semiconductor optical device apparatus satisfies either or both of the following conditions (a) and (b):**

Condition (A): a width (W_C) at an opening center of the stripe-shaped opening is different from a width (W_F) of the opening front end; and

Condition (B): a width (W_C) at an opening center of the stripe-shaped opening is different from a width (W_R) of the opening rear end.

Claims 2 - 53 has been found allowable due to their dependency on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance".
